

SANTEX

DEODORANT CLEANER SANITIZER NOT SCENTED

SANTEX is a cleaning, sanitizing and deodorizing agent. SANTEX destroys the source of many annoying odors leaving the air cleaned and safe on all surfaces not in contact with water.

SANTEX can be used on all hard surfaces, equipment of the workplace, in hospitals, restaurants, canteens, schools, factories, food industries, etc.

SANTEX removes in depth, quick and safe, all kinds of dirt, grease, sand, soap deposits and stains and is effective in both hot and cold hard water.

INSTRUCTIONS FOR USE

SANTEX can be applied with rags, sponges and by machine. The recommended concentrations for various applications are:

As Sanitizer: 15-30 ml (1.5 - 3%) of SANTEX per liter of hot or cold water. Hot water increases the effectiveness.

As Cleaner 15 ml (1.5%) of SANTEX per liter of cold or hot water.

For Cleaning Floors: with rags, etc. 5-10 ml (0.5 - 1%) of SANTEX per liter of hot or cold water.

For full removal of detached dirt, a final rinse with tap water is recommended.

STORAGE

SANTEX should be stored at temperatures between 5°C and 35°C, away from incompatible materials in a well-ventilated place.

SHELF LIFE AND PACKAGING

24 months , 1 kg/can and 5 kg/pail

PRECAUTIONS

Please refer to the Material Safety Data Sheet

* Hardness	mg/L as CaCO ₃
Soft	0-75
Moderate	75-150
Hard	150-300
Very Hard	> 300
