

SCALEOFF GEL

DESCALER, DETERGENT, SANITIZER

It is a viscous and scented product with a triple-action:

- detergent
- sanitizing
- descaling

Formulated to meet with cleaning needs in the public toilets, food industries, offices etc., to simplify maintenance operations.

It is formulated with buffered acids, surfactants and calibrated sanitizers specifically active towards a broad spectrum of bacteria.

With one step, SCALEOFF GEL removes limescale residues, mineral stains, dirt, grease, etc., and destroys the bacteria that lurk in the dirt.

It is used to clean and descale ceramic, porcelain, toilets bowls and can be used on stainless steel, chrome parts, aluminum parts, showers, etc.

INSTRUCTIONS FOR USE

It is used as received. Leave on a few minutes, depending on the type and amount of limescale and deposits, and then follow with a thorough rinsing with water.

SHELF LIFE AND PACKAGING

24 months, 5 kg/pail and 10 kg/pail

PRECAUTIONS

Refer to the information sheet on safety.
